EC4 Cemre Nayir

Proposers:
Agenda item: 6. Executive Committee Candidates

Introduction

Dear all,

I am Cemre Nayir from Young Greens of Turkey, I'm currently working with FYEG's RJTF and am locally involved in a pro-Palestine youth movement and an animal rights group. I want to be more involved in CDN's work for mainly 2 reasons: to further improve my knowledge and skills in green politics with hands-on experience and to contribute to the development of our capacity as Eastern European Greens however I can.

Best regards,

Cemre

Dear CDN and MO reps,

As a member of the Young Greens of Turkey, and a human being with a deep desire to find my roots in the world, with compassion and love towards all humans, animals, plants and everything else, I am honoured to apply for the Executive Committee membership at CDN.

There is a surge in far-right and extremism in the world with a deep series of global crises, all interrelated, and nothing we currently have seems to be able to solve most of these problems, which have been culminating in the past several centuries. Here is where my motivation to be more involved in CDN comes in, because it seems that especially in our regions these political issues go deeper and more complex, but there might be a bigger opportunity for growth for Greens, and the younger generations of greens, to formulate and share social solutions to crises that stem from systemic inequalities and discriminations. I am relatively new to this sphere but I want to see a green organisation, bolstered with large numbers, with people that truly care and are willing to hold each other's hands to create a fairer, braver, greener world – for all of us. This is why I want to work with CDN for the next term, to create more chances for those that will follow in our footsteps and to help pave a world for our – and their – futures.

I am aware that there are much to learn for me on this path, and I want to learn them all together, and to discover and surpass our limits with all of you, while building long lasting friendships and kick some conservative backwards greedy asses doing it!

With love and with green wishes,

All the best,

Cemre

Genç Yeşiller hereby pleased to support the candidacy of Cemre Nayir for the Executive Committee of Cooperation and Development Network Eastern Europe.

Cemre had the chance to experience both the youth wing of the greens as well as the mother party which is not a common occurrence that benefit him in a unique way. During the post election turmoil last year, he proved he could be someone that can motivate and reorganize people in difficult times.

When he shifted his focus to broader young greens involvement, he became active in FYEG Racial Justice Task Force with research and weekly meetings. He takes initiative and is willing to take action and jumpstart new paths, is highly sociable and affectionate.

We are convinced that Cemre will be an integral part of the future success of CDN in their upcoming mandate.

Sincerely,
Salih Tuna
