IR-487 Internal Rules of Procedure

Proposer: Polish Young Greens
Status: Withdrawn

Amendment for IR

Delete from line 486 to 487:

9. 3. EC members can't be older than 35 in at the moment of applying for EC~~, while only 1/4 can be older than 30~~

Reason

We believe that the limit on the number of EC members older than 30 may excessively restrict the organisation, without being justified by any hard requirements (such as the age of participants for projects funded by the European Youth Foundation). There may be years when there are more quality candidates who are above 30 years of age, and rejecting them could be a loss for CDN as a whole. Similarly, there may be years when the number of candidates is insufficient, and the viable candidacy of individuals above the age limit could help constitute a functioning EC body without the need for by-elections. Age should not be a limiting factor; members should be eligible as long as they are under 35 years old. CDN should cherish the engagement of all young people and leverage their expertise to the fullest extent.
