Amendment for IR

From line 279 to 283:

6. neighbouring regions (EU/EEA, North Africa, Middle East, Central Asia) during the whole mandate. ~~An exception can be made if EC member travels to different region for a maximum of 2 months period. In case this is not satisfied, the EC has the right to replace this EC member according to point 3.1.10.~~An exception can be made.

Reason

We propose this change because, in times of repression and war, many people are forced to leave their home countries, often relocating beyond Eastern Europe and neighboring regions, as those destinations may be more accessible to them. At the same time, these people can continue contributing to their home countries and to Eastern Europe as a whole. Therefore, the focus should be on their work and the cause of their activism rather than on their current country or region of residence.
