PP-2725-2 Political platform

Proposer: Executive Committee
Resolution date: 28.03.2025

Amendment for PP

Insert from line 2724 to 2725:
international system to achieve a broader understanding of security in the face of the current challenges.

Feminist policy should not only include women, nonbinary, trans and other non cis-male people, but also cis-men, as they are also heavily affected by the neoliberal patriarchal model that is ever present in the Eastern-European region. We want to provide safe spaces for men as well which will offer alternatives to toxic masculinity and patriarchal models, taking care equally about everyone's safety and physical and mental well being.

Reason

Proposal of better wording.
