ST-224 Strategy 2024-28

Proposer: Executive Committee
Resolution date: 10.12.2025

Amendment for ST

From line 224 to 227:

- Utilise digital organising tools such as petitions and ~~establish newsletter using 'Action Network' platform (transfer data from all other sources)~~continue newsletter. Initially, to be distributed quarterly, with the goal of transitioning to a monthly basis;

Reason

Our Mailchimp-based newsletter proven to be enough for our purposes. We can think about moving to different, more engagement platform based on the experience with campaigns, but as CDN only started doing campaign-based advocacy in 2025, it is not required now and should be supported by facts.
