SSP-414

Political Platform Amendment

Proposer: Executive Committee (decided on: 12.03.2026)

Title: **SSP-414: Safe Space Policy**

Motion text

Insert in line 414:

2.2 expel the participant involved in the physical incident.

3. In case of an extreme or multiple severe safe space violation, the Executive Committee can limit the participation of a perpetrator in the next activities, including the work in structures such as General Assembly or Council of Members.

Reason

As per now, we do not have mechanism that would limit the safe space violation perpetrators from participation in the statutory events, where the selection is not made by the CDN Team, but it is based on the registration.
